Hi Bessie. If your FAN is a Trust Fund (SF, OPA, or LUST) account then you charge ALL your time to the MA. If your FAN is not a Trust Fund account, then you can only charge your OT hours to the MA.

For Gold King, ALL time should be charged to the SSID/account.

Hope that helps. Please let me know.

FYI...Can someone explain to us again how those not in Superfund or OPA are to charge their time in People Plus?

Thank you...

Bessie

Water Emergency Team staff and managers are in need of clarity for charging time associated with incident response (whether Typhoon Soudelor or Gold King) as we approach PeoplePlus timekeeping. Any guidance on charging of regular/overtime/comp time would be appreciated. Many worked on weekends and weeknites.

I forwarded your message to Barbara who is familiar with the rules.

Am I understanding correctly that only my Overtime Hours should be charged to the Mission Assignment?

This is a little fishy, because while I did work on the response during my normal working hours, I completely neglected my regular duties.

Anyway...
